Focus Courses

PROGRAM OVERVIEW

If you love the idea of learning at your own pace in your own space, one of the 21 Things focus courses might be just what you're looking for!

Utilizing the content of the 21 Things for Teachers full online course, we've developed shorter focus courses for the teacher looking for just-in-time training through an online interface, but in a smaller dose than the full 21 Things course.

The course kicks off with a 2-hour face-to-face session and continues online for 2 weeks. Chose your focus area:
Classroom Tools for Blending Instruction; Teacher Development and Productivity Tools; Differentiation Tools for Teaching and Assessing.
