moodle
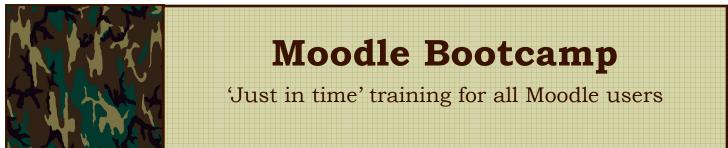

Moodle Bootcamp

'Just in time' training for all Moodle users

Moodle is an online Course Management System with the ability to serve as a teacher webpage as well as function as the online "hub" for resource sharing. Participants in this workshop will learn the basics of setting up a course in Moodle and also explore advanced features available. A hands-on approach will allow educators time to create courses using their own materials. Participants can customize their experience by choosing to attend for 1, 2 or 3 days!

> 1 day: 7 SCECH $25
> 2 days: 14 SCECHs $50 or 1 CMU credit* $300
> 3 days: 21 SCECHs $75 or 2 CMU credits* $600
> *Completion of additional time online required for CMU credit

Day One: Introduction to Moodle and basic course creation elements, brief overview of advanced course design features

Day Two: Continued course development work, creating assignments and assessments

Day Three: Continued course development work, advanced course design features
